Figure 1 is a grayscale map of the North Pacific Ocean. It displays sea level pressure (SLP) contours and wind vectors. A prominent green line, representing the storm track, curves from the northwest towards the southeast. Two red 'L' marks indicate low-pressure systems: one in the upper left and another in the center. A blue 'H' mark in the bottom left corner indicates a high-pressure system. Text labels include 'NZOM' near the top left, 'SDM' near the center right, and 'S. POLE' at the bottom center.
