

A.O.P.B. WEATHER OUTLOOK

February 13, 2021

00L 06L 12L 18L 24L

A satellite map of the Southern Ocean and surrounding landmasses. A low-pressure system is marked with a red 'L' over the South Shetland Islands. A high-pressure system is marked with a blue 'H' over the South Pole. The map also features a red 'NZCM' label near the Antarctic Peninsula and a red 'SDM' label further east. The coastline of the continent is shown in blue, and the ocean surface is depicted with various shades of gray and white to represent cloud cover and sea state.
