# MCMURDO DAILY WEATHER FORECAST

This information is for official use only and is limited to activities sponsored or recognized by the United States Antarctic Program.

## REGIONAL WEATHER SUMMARY

Cloudy skies, occasional snow, periods of fog... today's weather is brought to you by "low on the ice shelf" - it's your friend who came for the holidays and just won't go away. Tomorrow, however, that low might just step far enough back to allow some clearing. If not, put loaded ham loaf, festive jello salad & antique fruit cake on the menu, maybe that will do the trick.

### TODAY

7-Dec-2025
