## Friday, 10 December 2021 PALMER STATION WEATHER FORECAST INFORMATION

THIS INFORMATION IS FOR OFFICIAL USE ONLY AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED BY THE UNITED STATES ANTARCTIC PROGRAM

## REGIONAL WEATHER SUMMARY

Wet westerlies continue unabated as waves of low pressure drive east through south-central Bellingshausen Sea. Expect higher wind and increased precipitation by evening as a frontal boundary passes east. Tomorrow should see an ease in conditions before the next wave hits over night...
