PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A snowy pattern is in store for much of the Antarctic Peninsula, as a series of potent low pressure systems affects the region. As one low exits east of Palmer this morning, another will approach from the west, reaching west-central portions of the peninsula on Wednesday. Ample moisture tomorrow will be favorable for periods of heavy, wet snow, as well as gusty winds.
