**PALMER STATION WEATHER FORECAST INFORMATION**

**THIS INFORMATION IS FOR OFFICIAL USE ONLY  
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED  
BY THE UNITED STATES ANTARCTIC PROGRAM**

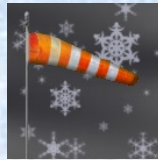

**REGIONAL WEATHER SUMMARY**

Moist flow continues from the northwest as Low pressure remains in the Amundsen Sea region throughout the period. This will continue to cause periods of fairly decent weather mixed in with pretty darn ugly weather through tomorrow. There will be several periods of decreased visibility in snow/rain beginning this morning, another after midnight tonight, and again tomorrow late afternoon into the evening hours. The stronger winds are expected this morning and again tomorrow late morning into the evening timeframe.

**Today**  
1 November
