PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

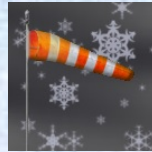

REGIONAL WEATHER SUMMARY

Low pressure crashes into Adelaide Island late this afternoon into this evening, keeping cloudy skies and periods of reduced visibility in snow over the region into this evening. The next wave approaches from the north on Sunday morning, which will help shield Palmer Station from the brunt of the storm. Gusty winds and occasional light snow will still work into the area throughout the day, with cloudy skies continuing into Monday.
