**PALMER STATION WEATHER FORECAST INFORMATION**

**THIS INFORMATION IS FOR OFFICIAL USE ONLY  
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED  
BY THE UNITED STATES ANTARCTIC PROGRAM**

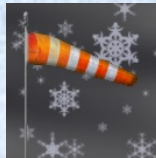

**REGIONAL WEATHER SUMMARY**

A deepening Low pressure system to the west-northwest will bring several waves of precipitation over the area beginning this afternoon, with strengthened winds and reduced visibility in a mix of snow and rain for tonight. Deteriorated conditions continue into Wednesday with occasional periods of improved visibility expected throughout the day, with precipitation diminishing late night as the frontal boundary pushes off to the east. Next system rolls in from the west-northwest late Thursday morning.
