PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A wet & windy period is expected the next few days as a series of strong low pressure systems impacts the Antarctic Peninsula. An intense cold front will slam ashore today, accompanied by hurricane-force wind gusts and poor visibility in moderate precipitation. Another period of strong winds and snow is likely tomorrow, as a large & powerful cyclone approaches from the west.
