PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

As the troublesome low pressure system finally barrels into the Antarctic Peninsula, winds will remain on the higher side, along with cloudiness and a good amount of rain and wet sleet. However, the system moves on tonight, easing up on the overall intensity of the weather, and tomorrow will be a fairly calm day. Clouds and rain will persist, but the winds die down, allowing temperatures to drop once again before the next low pressure system moves in...

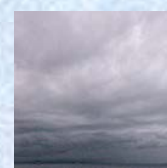

Today
22 December

Tonight

Tomorrow
23 December
