**PALMER STATION WEATHER FORECAST INFORMATION**

**THIS INFORMATION IS FOR OFFICIAL USE ONLY  
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED  
BY THE UNITED STATES ANTARCTIC PROGRAM**

**REGIONAL WEATHER SUMMARY**

A series of lows strike Anvers Island from the north through this forecast period. In between, the tight pressure gradient around the central low to the west keeps strong and gusty winds in the area. The strongest winds – and heaviest snow – are expected tomorrow as that central low shifts ever closer to the peninsula.

**Today**  
5 June

**Tonight**

**Tomorrow**  
6 June

**Sky:** Cloudy, occasionally  
Partly Cloudy

**Visibility (SM):** Unrestricted  
becoming 3-5 in snow and mist
