PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

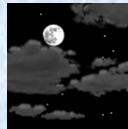

REGIONAL WEATHER SUMMARY

A passing low center generates gusty winds today and tonight, that along with the slowly rising temperature is a signal of a change in the weather as the ridge begins to break down. A trough will further displace it tomorrow, with increasing cloudiness and snow the first sign of its approach.

Today
30 May

Tonight

Tomorrow
31 May

Sky: Partly Cloudy

Visibility (SM): Unrestricted
