PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

Relatively fast, moist westerly winds will propel minor systems quickly eastward through the southern Antarctic Peninsula and Drake Passage the next few days. This pattern means there will be periods of precipitation and minor fluctuations in temperature and wind, as small, difficult-to-time weather systems move quickly through Palmer.

Today

19 November

Tonight

Tomorrow

20 November

Sky: Mostly cloudy

Visibility (SM): 1-3 in morning fog, otherwise unrestricted with occasional 2-4 in snow; snow may mix with rain at times
