PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A weak low pressure system centered near Palmer this morning will dissipate. A few, weak low pressure troughs will rotate around a broad, nearly stationary low pressure system centered over the Bellingshausen Sea. These disturbances will move east across the Antarctic Peninsula through Sunday and will be associated with periods of snow and modest increases in wind.
