PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A low pressure system in the Weddell Sea is intensifying and allowing for a high pressure ridge to develop over the west coast of the Antarctic Peninsula. Indications are for light winds and periods of light precipitation today and tonight. Tomorrow expect favorable conditions as winds increase through the day becoming strong by end of the period as next low pressure system approaches from the west.

Today

21 April

Tonight

Tomorrow
