**PALMER STATION WEATHER FORECAST INFORMATION**

**THIS INFORMATION IS FOR OFFICIAL USE ONLY  
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED  
BY THE UNITED STATES ANTARCTIC PROGRAM**

**REGIONAL WEATHER SUMMARY**

A low pressure system moves into the Weddell Sea with a high pressure ridge strengthening along the west coast of the Antarctic Peninsula as another low pressure system approaches from the west. Indications are for strong southwest winds today and most of tonight with persistent precipitation, heavy at times, reducing visibility. Expect precipitation ending late tonight with decreasing winds tomorrow and favorable conditions as cold temperatures persist.
