PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A low pressure system intensifies northwest of Anvers Island and tracks north-northeastward across the Drake Passage as a high pressure ridge strengthens along the west coast of the Antarctic Peninsula. Indications are for northeasterly winds today with periods of light precipitation. Expect increasing westerly winds late tonight and tomorrow with persistent precipitation tomorrow as temperatures gradually increase.
