PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A weakening low's warm front migrates towards Drake Passage and the Antarctic Peninsula over the next 36 hours. Expect benign weather until midday, when gusty winds and steady light mixed precipitation begin. Waves of fog reducing visibility are expected as the low center moves closer to the peninsula.
