## Saturday, 16 December 2023 PALMER STATION WEATHER FORECAST INFORMATION

THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM

## **REGIONAL WEATHER SUMMARY**

The low pressure system off the coast will continue to weaken and move across station with little impact on significant weather. Precipitation will continue to fall as the low tracks across the Antarctic Peninsula. As high pressure begins to move into the area, precipitation will end. Southwest winds will bring in moist air causing fog. Residual moisture from the low will cause clouds to linger in the area.

Today 16 December	Tonight	Tomorrow 17 December
Sky: Cloudy	Sky: Cloudy	Sky: Cloudy
