PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

The low pressure system over station will weaken and move into the Weddell Sea, leaving Palmer Station in an area between low pressure systems. Clouds will remain in the area with periods of precipitation and fog overnight. A new low pressure system will move into the area late on the 24th where snow will intensify.
