PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A low pressure system on the northern tip of the Antarctic Peninsula will continue to weaken and push into the Weddell Sea, giving Palmer Station a little break from precipitation. Fog will form in the night/early morning but will dissipate in the morning and moisture will begin to move out. Thursday will see less cloud cover but some higher wind speeds.
