Monday, 27 February 2023 PALMER STATION WEATHER FORECAST INFORMATION

THIS INFORMATION IS FOR OFFICIAL USE ONLY AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED BY THE UNITED STATES ANTARCTIC PROGRAM

REGIONAL WEATHER SUMMARY

Batten down the hatches! A low pressure center moving through the Drake Passage will cause strong NE winds to converge along the west coast of Palmer Station and into the Bellingshausen Sea region. Expect increasing gusty winds today becoming stronger tomorrow along with increased cloud cover and precipitation.
