PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A strong low pressure system is approaching Anvers Island, not only sustaining the cloudiness and wet snow, but once again ramping up the winds as well. Strong northerly winds will bring an influx of warm air, though the wind chills will remain cold through the period as the low stalls in the Bellingshausen.
