PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A low pressure system intensifies and surges southward into the Bellingshausen Sea causing northeasterly to easterly winds to converge along the west coast of the Antarctic Peninsula. Indications are for strong northeasterly winds with gusts up to 65 knots late today through early tonight. Expect strong northeasterly winds continuing through tomorrow with persistent precipitation, heavy at times, as the system begins to weaken by late tomorrow.
