PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

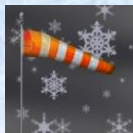

REGIONAL WEATHER SUMMARY

A low pressure system intensifies and moves from the Southern Ocean into the Bellingshausen Sea as a blocking high pressure ridge moves east of Drake Passage. Indications are for increasing pressure gradient causing strong north-northeast winds gusting up to 62 knots today. Expect persistent precipitation restricting visibility, heavy at times, with strong north-northeast winds continuing tonight and tomorrow as the low pressure system slowly moves northeastward.
