PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

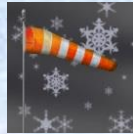

REGIONAL WEATHER SUMMARY

A low pressure system in the Bellingshausen Sea slowly moves northeastward and begins to cross the Antarctic Peninsula with a low pressure center forming in the Weddell Sea tomorrow. Indications are for continued strong north-northeast winds gusting up to 55 knots tomorrow. Expect continued persistent precipitation, heavy at times today and tomorrow with a break overnight, as temperatures trend colder.
