PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A low pressure system weakens in the Bellingshausen Sea and moves to the south as a high pressure ridge strengthens near Anvers Island through the forecast period. Indications are for strong north-northeast winds becoming west-northwest late today and through tonight. Expect precipitation beginning this afternoon, persisting through tonight, and ending tomorrow as wind speeds decrease due to the high pressure ridge moving into the region.

Today

4 June

Tonight

Tomorrow

5 June
