PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A low pressure system moving through the Drake Passage and a low pressure system in the Weddell Sea will allow for a high pressure ridge to develop along the west coast of the Antarctic Peninsula through the forecast period. Indications are for northeast-east to southeast winds increasing tonight with favorable conditions tomorrow and colder temperatures through the forecast period.
