PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A low pressure system moves to the northeast of the region as a high pressure ridge strengthens along the west coast of the Antarctic Peninsula causing strong south-southwesterly low level winds. Indications are for strong south-southwest winds continuing through tomorrow with low level clouds and periods of low visibility due snow and blowing snow as temperatures and wind chills remain well below freezing.
