**PALMER STATION WEATHER FORECAST INFORMATION**

**THIS INFORMATION IS FOR OFFICIAL USE ONLY  
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED  
BY THE UNITED STATES ANTARCTIC PROGRAM**

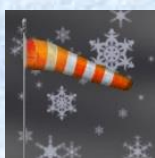

**REGIONAL WEATHER SUMMARY**

A low pressure system in the Bellingshausen Sea intensifies and moves into the Drake Passage by late tomorrow. Indications are for north-northeasterly to easterly winds today with periods of low visibility due to snow and freezing fog. Expect north-northeast winds increasing and becoming strong tonight and through most of tomorrow as the pressure gradient increases and the low pressure center passes to the north of Anvers Island.
