PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

An intensifying area of low pressure moves into the Bellingshausen Sea from the west causing an increasing pressure gradient with strong northeasterly winds along the west coast of the Antarctic Peninsula. Indications are for wind speeds increasing through the day and into the night then decreasing and shifting easterly to southeasterly tomorrow as the chance for precipitation increases.

Today

7 March

Tonight

Tomorrow

8 March
