**PALMER STATION WEATHER FORECAST INFORMATION**

**THIS INFORMATION IS FOR OFFICIAL USE ONLY  
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED  
BY THE UNITED STATES ANTARCTIC PROGRAM**

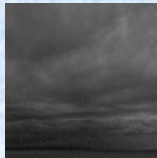

**REGIONAL WEATHER SUMMARY**

One low pressure system weakens in the Bellingshausen Sea as another develops in the Drake Passage today with a high pressure ridge between the two near Anvers Island. After gusty winds early this morning indications are that this pattern will bring favorable conditions with light winds through the majority of the forecast period. Expect low level clouds and precipitation moving in from the southwest by late tomorrow as a low pressure system develops in the Weddell Sea.
