PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A weak low develops along the tail-end of the previous frontal boundary, drawing additional moisture south towards the Antarctica Peninsula. Gusty winds and light mixed precipitation are expected persist until midday, then a lull, followed by another wave overnight. Tomorrow, expect gusty winds and fairer weather overall, excluding intermittent periods of patchy sea fog in the morning.
