PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

The high pressure system in the Bellingshausen Sea persists, maintaining a strong pressure gradient as lows travel along the Antarctic Peninsula and into the Drake Passage. It will continuously draw lower level moisture towards station throughout the forecast period. Expect periodic drops in visibility due to fog, gusty winds throughout the day, and snow tomorrow afternoon.
