Saturday, 29 June 2024 PALMER STATION WEATHER FORECAST INFORMATION

THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM

REGIONAL WEATHER SUMMARY

Low pressure tracks eastwards towards station. High pressure helps divert some of the precipitation associated with the system away from Anvers. Nonetheless, light snow is still anticipated throughout the forecast period. Winds will strengthen as the pressure gradient tightens along the terrain of the Antarctic Peninsula.
