PALMER STATION WEATHER FORECAST INFORMATION

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

REGIONAL WEATHER SUMMARY

A high pressure ridge weakens over Drake Passage and gives way to a developing low pressure system in the southern Antarctic Peninsula and Weddell Sea. Indications are for strengthening west-northwesterly winds over Anvers Island today with precipitation becoming heavy at times late today and into tonight. Expect similar conditions tomorrow as the low continues to develop and move eastward through the central Weddell Sea.

Today
9 May

Tonight

Tomorrow
10 May

Sky: Cloudy
