Wednesday, 15 May 2024 PALMER STATION WEATHER FORECAST INFORMATION

THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM

REGIONAL WEATHER SUMMARY

A decaying low passes through the Drake Passage as a high pressure system develops around Palmer Station. Tomorrow a low heading towards the Antarctic Peninsula will bring in some lower level moisture with the potential for fog, though it will stay far enough away to keep winds light.
