PALMER STATION WEATHER FORECAST INFORMATION

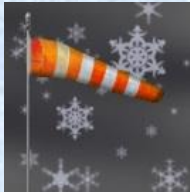

**THIS INFORMATION IS FOR OFFICIAL USE ONLY
AND IS LIMITED TO ACTIVITIES SPONSORED OR RECOGNIZED
BY THE UNITED STATES ANTARCTIC PROGRAM**

It is still that time of season where transitory systems are constantly providing onshore flow and as a result high winds and low visibility as snow combines with blowing snow. Unfortunately this period is pretty consistently bad in terms of continuous strong northerly flow and snow falling throughout the period.

Today
04 September

Tonight

Tomorrow
05 September

Sky: Mostly Cloudy

Visibility (SM): 1-3 due to snow and blowing snow

Wind (kts): NE 20-25 gusting 30
