Seas (FT)

**SURFACE FORECAST 28-Apr-2022 06Z**

**METSIT 18Z**

**26-Apr**

A ridge is in place over the area today, but a low moving up along the peninsula coast will bring gusty winds, snow, and falling temperatures to the area as it passes over Anvers Island tonight through tomorrow.

**FORECASTER NOTES**

Winds may differ from those forecast due to funneling/sheltering effects of islands.
