

**SURFACE ANALYSIS 27-May-2022 00Z**

Seas (FT)

**SURFACE FORECAST 28-May-2022 12Z**

**METSIT 00Z 27-May** The pattern has remained unchanged from the previous forecast, but a slight delay on course has brought more favorable conditions as the low moves eastward and the high weakens. Less precipitation in your path, and lower seas ahead than previously expected. Winds still a bit gusty but mostly out of the south.

**FORECASTER NOTES** Winds may differ from those forecast due to funneling/sheltering effects of islands.
