

SURFACE ANALYSIS 28-May-2022 00Z

Seas (FT)

SURFACE FORECAST 29-May-2022 12Z

METSIT 00Z 28-May The pattern has remained unchanged; expected weather essentially the same. Strongest winds experienced will likely occur tomorrow as you round the cape, but are expected to gust no higher than 45 knots. Occasional light precipitation will accompany you along the way.

FORECASTER NOTES Winds may differ from those forecast due to funneling/sheltering effects of islands.
