

METSIT 21Z 9-May A series of low pressure centers exist and move about out Bellingshausen, Amundsen Sea's and the Pacific. However moving into the peninsula area and the Gerlache Strait should shield you much of the strong winds and sea states. Heading into Palmer Station, expect winds to continue to be light, but an increase in snow fall.

FORECASTER NOTES MCMURDO STATION WINTER OPERATIONS ARE IN EFFECT. WEAX SUPPORT WILL BE DONE BY THE MCMURDO STATION WEATHER OFFICE AND ISSUED BY 2100Z. SEE CONTACT INFO BELOW.
