

Ref A: MOVREP 10 MAR 23

Ref B:

METSIT 21Z 10-Mar Generally good conditions as you transit the eastern side of New Zealand. However, a deep low pressure moving through the southern ocean makes it's effects known coming around the souther tip of the island. Winds and sea states pickup as your track puts you near the northern side of the low as it moves eastward.

FORECASTER NOTES MCMURDO STATION WINTER OPERATIONS ARE NOW IN EFFECT. WEAX SUPPORT WILL BE DONE BY THE MCMURDO STATION WEATHER OFFICE AND ISSUED BY 2100Z. SEE CONTACT INFO BELOW.
