Seas (FT)

**SURFACE FORECAST 14-Mar-2023 18Z**

**METSIT 21Z 13-Mar** The weather making low pressure system has now moved to the east of New Zealand. High pressure builds in over the South Island bringing some clearing skies before clouds move back in later. Winds do pick up later in the forecast period with a tight pressure gradient between the high and another low pressure system that will once again transit from west to east in the southern ocean.

**FORECASTER NOTES** MCMURDO STATION WINTER OPERATIONS ARE NOW IN EFFECT. WEAX SUPPORT WILL BE DONE BY THE MCMURDO STATION WEATHER OFFICE AND ISSUED BY 2100Z. SEE CONTACT INFO BELOW.
