

SURFACE ANALYSIS 23-Mar-2023 18Z

Seas (FT)

SURFACE FORECAST 25-Mar-2023 06Z

METSIT 21Z 23-Mar Expect generally calm conditions while you loiter and then start your transit through Foveaux Strait. As you exit the Strait, you'll exit right into the middle of the low pressure system. Cloudy, rain, reduced visibilities and strong gusty winds as your travel right through the center of the low. Late in the forecast period you exit the low where conditions do eventually settle down. However, you should still expect to see some moderate sea states.

FORECASTER NOTES MCMURDO STATION WINTER OPERATIONS ARE NOW IN EFFECT. WEAX SUPPORT WILL BE DONE BY THE MCMURDO STATION WEATHER OFFICE AND ISSUED BY 2100Z. SEE CONTACT INFO BELOW.
