

METSIT 06Z 28-Feb High pressure ridging continues to build across your current charted route. Cloudy conditions continue as there will be periods of rain, fog and/or rain and fog, especially as temperatures warm moving north. As the high pressure ridge builds a large low pressure system slides south, winds pick up significantly and larger waves just S-SE.

FORECASTER NOTES MCMURDO STATION WINTER OPERATIONS ARE NOW IN EFFECT, WEAX SUPPORT WILL BE DONE BY THE MCMURDO STATION WEATHER OFFICE AND ISSUED BY 2100Z. SEE CONTACT INFO BELOW.
