

SURFACE ANALYSIS 15-Mar-2024 18Z

SURFACE FORECAST 17-Mar-2024 06Z

METSIT 21Z 15-Mar The low pressure system to the east is expected to decay and push eastward, with relatively high pressure funneling in behind it. After 12Z on the 16th, clear skies, light winds, and unrestricted visibility are forecasted to prevail until 06Z on the 17th. Strong winds and lowered visibility are possible after 12Z on the 17th due to a large scale Ross Low passing through.
