

Ref A: 15 MAR 24 NBP SITREP

Ref B:

METSIT 21Z 16-Mar A small and shallow transitory low pressure system will pass through the operating area the initial 24 hours but impacts will be short lived as the system is moving eastward rapidly and filling. Stagnant high pressure will build in behind it leaving favorable conditions until late on the 18th when the next migratory low pressure system will increase wind speeds and cloud cover.
