SURFACE FORECAST

31-Dec-2024

18Z

METSIT 06Z 30-Dec Your track is in the middle of a trio of pressure centers: a 963mb low to the northwest, a 1014mb high to the north, and a 986mb low to the southeast. All three systems will track in a southerly direction over the next day. The low to the northwest will track south and give a notherly gale force winds in the next 24 hours with rough to very rough seas. Clouds will return with the low pressure tracking south. Tomorrow, this will result in heavy fog and continued periods of gale force winds.
