Seas (FT)

SURFACE FORECAST

5-Apr-2025

18Z

METSIT 06Z

4-Apr

High pressure over northern Victoria Land is weakening but will still support fair weather over the western MODLOC. Low pressure troughing into the Ross Sea will deepen, increasing cloudiness and snow over the eastern portion of your OPAREA.

FORECASTER NOTES

Winds may differ from those forecast due to funneling/sheltering effects of islands and katabatic winds off glaciers.
